We need to wait until the outcome of application is known before any further steps are taken.</p> <p>4.2 A member of the public asked about the fading road markings at the road junction at the top end of Old Road. Health screening events across Stratford District

Stratford-on-Avon District Council has joined together with the Graham Fulford Charitable Trust (GFCT) to offer a series of health screening events for both men and women across the District.

The tests on offer cost £14 each, subsidised by the District Council and are:

- For men over 40 - PSA (Prostate Screening)
- For men and women aged 18 and over - diabetes and cholesterol

The next event takes place on Saturday 9th May at The Graham Adams Centre, Saint James Road, Southam, CV47 0LY

- **The accessible sport of padel coming to Stratford Leisure Centre**

Everyone Active is partnering with padel centre operator PadelStars to construct the courts at the centre, which is run by award-winning operator Everyone Active and Stratford-on-Avon District Council.

The new padel courts will sit next to the existing outdoor courts, replacing the 2G Multi- Use Games Area. Customers will have access to three football courts and three padel courts by the end of the project. There will be two doubles courts for padel and one singles court.

Construction begins toward the end of May, with courts for matches and training expected to open by June.

- **Free memberships for people with Parkinson's in Stratford-on-Avon District**

Free gym memberships are being offered by local leisure centres to people living with Parkinson's.

Stratford Leisure Centre, Southam Leisure Centre, Shipston Leisure Centre, Studley Leisure Centre and The Greig Leisure Centre in Alcester, run by award-winning operator Everyone Active in partnership with Stratford-on-Avon District Council, offer the initiative co-designed with the charity Parkinson's UK.

Now in its fifth year, the Everyone Active and Parkinson's UK free membership provides access to gym, swim and group exercise classes, as well as online Synergy Dance classes.

A free membership will also be given to up to three carers to provide additional support if needed.

Currently, Everyone Active supports 96 individuals in Stratford-on-Avon District with Parkinson's.

World Parkinson's Day, which took place on Saturday 11 April 2026, raises awareness of the progressive neurological condition that currently has no cure.

Parkinson's affects around 145,000 people in the UK and there are more than 40 symptoms, from tremor and pain to anxiety.

Being physically active can play an important role in living well with Parkinson's. Those living with the condition can find various activities, such as swimming, walking and dance, beneficial in managing their symptoms.

Clinical waste disposal

We are seeing an increase in **needles and other clinical sharps** being found in recycling and household waste bins. This is dangerous and puts residents and waste crews at risk.

Any clinical sharps such as needles, syringes and prick sticks boxed up to 1 litre can be taken pharmacies across the District. Sharps boxes over 1 litre should be returned to your doctor's surgery.

By-election in the adjoining Ward of Bishops Itchington, Fenny Compton and Napton

For information purposes with the resignation of Cllr. Nigel Rock (LibDem) due to ill health the local by-election will take place on the 7th May. This will not have any direct effect on your Parishes but depending upon the outcome could change the political balance within SDC and change the membership of the working committees, especially for the minor parties and independent members. Good luck to all candidates.

Ratley & Upton Parish Council Meeting 28th May 2026 **Raising of threat level to severe**

The Safer Warwickshire Partnership Board are sharing this statement from Warwickshire Police on the raising of the terrorism threat level to severe.

Deputy Chief Constable, Ben Smith said:

“You will have seen in the news that the UK terrorism threat level has been increased from substantial to severe – meaning an attack in the UK is highly likely.

“This change comes following a series of recent incidents targeting Jewish communities in London, and our thoughts very much remain with all those impacted by these horrific attacks. “The raise in threat level will no doubt be a cause of significant concern. I therefore wanted to give some information and reassurance about what this means for us all here in Warwickshire.

“The change in the threat status is in response to those recent events and is a precautionary measure, not based on any specific threat.

“But we do all need to be vigilant.

“Warwickshire Police will continue to be visible in our communities, and will be working with partner agencies, local businesses, and faith groups to share information and advice on security, what to be on the look-out for and how to report any concerns.

“Communities defeat terrorism, and we are asking you, the public to remain vigilant and report any suspicious activity to the police.

“Your support is essential, and communities across the country continue to show they stand together against anyone who tries to divide them.”

If you do see anything that doesn't feel right, please report it via www.gov.uk/ACT. In an emergency, always call 999.

More information about what to do if you are concerned about the behaviour of someone close to you can be found on the <http://actearly.uk> website, including how to spot the signs of radicalisation and where to go for support.

Strengthening local social care and health support

Warwickshire County Council's Cabinet has endorsed an £80.1 million plan to support residents to live healthier, more independent lives for longer. Find out more: The Better Care Fund (BCF) Plan for 2026/27 continues to bring together NHS and council funding to make health and social care services in Warwickshire simpler to access, better coordinated and more focused on prevention. Funding through the BCF directly supports older people, disabled residents and those with long-term or more complex health conditions by providing care and support closer to home.

This may include:

Help to remain independent at home for longer

Faster, better-coordinated support when people return home from hospital

Adaptations to homes that make everyday living safer and easier

Joined-up local services so individuals don't have to repeat their story or navigate multiple organisations

By supporting people earlier and in the right setting, the funding also helps to reduce unnecessary hospital stays and avoid long term care where it's needed.
